Peking Vows U.S. Accounting for Blood Debts

PEKING, April 27—The People's Daily, the Chinese Communist Party newspaper, today said that "together with the other people of Asia and the rest of the world the U. S. aggressors will eventually settle accounts with the U. S. aggressors for their blood debts." It was commended for the "200th serious warning" issued by the Chinese Foreign Ministry to the United States yesterday for alleged intrusions by its planes and warships into China's territorial waters and air space. The newspaper said that since mid-1958 261 U. S. ships have intruded into China's territorial waters and U. S. planes have intruded into the mainland, the Associated Press reported. The newspaper said that the Kennedy Administration was preparing to obstruct the formation of a coalition government in Laos and preparing to rekindle the war flames there. It said that at the same time the United States was throwing its military forces to an ever increasing extent directly into the world "where Communist forces are expanding their power." The newspaper quoted Gen. George H. Decker, Chief of Staff of the U. S. Army, as saying that the U. S. Senate last March told the United States was expanding its capability to wage "special warfare" in South Vietnam. The newspaper said that the U. S. Daily Communist Party newspaper, the People's Daily, has inspired or may develop guerrilla warfare in the southern part of Vietnam. The newspaper said that the U. S.
